Subject: [REDACTED] - Daily Report - No Exceptions - KL

Hello All Parties,

Attached please find a Summary Daily Report for the above-referenced project. Within it you will find the psychometric readings, moisture mapping tables and charts along with equipment positions and layouts. We are providing this data on a consistent repeated basis so that all parties are aware what is going on on the project and have an opportunity for input to create the opportunity for there to be full agreement on the project and its handling.

To the Insured:

Please review and contact us with any questions.

To the Carrier:

Please review and contact us with any questions. Please note: should you wish to have a preferred

vendor, engineer or peer review entity on this project, we respectfully request that you contact us immediately and arrange for daily inspections and provide their email address so that we can put them on this daily distribution list. If they are expected to perform a review of a peer's performance and process, we strongly feel that they should have the opportunity to engage the loss as it occurs and not be put in the position of second guessing it after its completion.

Should you wish to have a daily report with charges to-date and/or the inclusion of pictures, please let us know and we can create a distribution schedule for that function as well.

Finally, please accept this as notice that this loss could exceed the \$3,000 policy limit present on some policies and we request immediate contact in the event that this limitation exists.

Have a great day and do not hesitate to contact us at 813-962-6855 should you have any questions.

With Regards,

The NextGen team

Please do not respond to this email as it is an unattended box. Please direct all responses to Monique Cancel at MCancel@[REDACTED]com.
